- ✓ Language is specified

FAILED CHECKS

- ✗ Title length should be between 30 and 60 characters
- ✗ Meta description is missing
- ✗ Content should contain at least 300 words
- ✗ Canonical tag is missing

AI RECOMMENDATIONS

- Expand the meta title to be between 30 and 60 characters, incorporating relevant keywords to accurately describe the page content.
- Create a meta description between 120 and 160 characters that accurately summarizes the page content and encourages clicks.
- Increase the page content to at least 300 words and implement a hierarchical heading structure using H2, H3, etc., to organize information logically.
- Review robots.txt and meta robots tags to remove directives blocking the page from indexing, allowing search engines to crawl and include it in search results.
